ViV Bioprosthesis & Cracking Fundamentals

Hands-on (Sequential Flow):

TAVI Implantation

Bioprosthesis Cracking

Tips & Tricks: Coronary re-access (Model demonstration and brief 3–4 slide overview)

SESSION 4: CASE DISCUSSION

Bring Your Case: Case presentations focusing on alternative access, Valve-in-Valve, and access complications – link to send on website + prize for best case

Interactive 3mensio Analysis: Dedicated TAV-in-TAV case

DAY 2: MITRAL, TRICUSPID

Know the Technology: Station rotations

SECTION 5: MITRAL VALVE

Mitral ViV/ViR/ViMAC

CT Analysis for Small LVOT Cases: LAMPOON, BATMAN & SESAME

LIAB: TMVR e.g. SAPIEN M3 Mitral Valve Replacement (15–20 minute presentation, structured with dedicated pauses for discussion)

Hands-on: Mitral Valve (TMVR Workshop & TEER)

Lunch

SECTION 6: TRICUSPID VALVE

Live Case: AV-Valve Intervention

LIAB: Challenging Tricuspid TEER & Orthotopic Valve Implants (Featuring Evoque and the latest TTVR technology)

Hands-on: Tricuspid Simulator – ELASTA technique followed by Evoque Valve implantation

Coffee Break

SECTION 7: INTERACTIVE CASE DISCUSSIONS

Bring Your Case: Case presentations focusing on difficult TEER, and live-in-the-box nightmare complications – link to send on website + prize for best case
